

Customer Name:
 Job Description:
 Cyclonaire Proposal Number:

APPLICATION DATA SHEET

Application	
Material Data	
Product	
Product Class	
Bulk Density	
Moisture	
Flowability	
Particle Size	
Temperature	
Segregation	
Characteristics	
Abrasiveness	
Design Data	
Type of Conveying	
Type of Loading	
Vacuum Distance (if applicable)	
Line: Full or Clear	
Injector Spacing	
Convey Rate (Maximum Instantaneous – Does not include purge time)	
Conveyor Inlet Size	
Convey Line Size	
Number of Elbows	
Actual Convey Distance	
Effective Convey Distance	
Specification (Y/N)	
Expected Equipment operational time (Hours/Day)	
Site Description	
System Application	
Install Location	
Elevation	
Material Source	
Material Destination	
System Calculations	
Conveyor Capacity	
Material of Construction	
Type of Finish	

Average Air Consumption	
Supply Pressure	
Convey Pressure	
Dust Collection	
Air:Cloth Ratio	
Process Information	
Supply Voltage	
Area Classification	
Instrumentation Voltage	
Enclosure Type	
PLC & HMI Platform	
Destination Devices? Type?	

Project Summary
